Dear ,

This week, a student in Calgary will eat lunch because of your generous support. Thank you.

Every school day, over 2,800 students receive a lunch made and packed by a BB4CK volunteer, with food paid for by our community. These students would have otherwise gone without a healthy lunch. But because of the food they receive, students are able to face the day with confidence. They can focus on school work, on making friends, and on participating, free from the distractions of an empty tummy.

For these students, lunch is freedom. Lunch is energy. Lunch is love – the love of a stranger who would help ensure they have enough to eat.

Your contribution, your commitment to doing something about this enormous issue, truly makes a difference.

We are so excited to count you as part of the BB4CK community. Together, we will ensure there are no hungry kids in Calgary.
